Introduction to Databases
Node JS
React JS

Deepraj Ojha

MERN Stack Developer | B.Tech 2023–27 | Nxtwave CCBP Fellow |
Skilled in React, Node.js, Express, MongoDB | Strong in JS & DSA
(C++) | Seeking MERN Internship to build scalable apps.
Deoria, Uttar Pradesh, India

Summary

I'm currently pursuing full-stack development and software engineering at NxtWave's CCBP 4.0 Academy (NIAT), specialising in modern 4.0 technologies. My journey is centered around hands-on learning, problem-solving, and building real, scalable projects.

I enjoy tackling coding challenges, exploring system design, and applying structured software engineering practices in every project I develop. I also work with prompt engineering to accelerate ideation, improve productivity, and enhance user-focused solutions with AI.

I'm driven by curiosity, consistency, and a deep interest in building meaningful digital experiences. Open to collaborating, learning, and contributing to innovative teams.

Experience

NxtWave

Full Stack Development Trainee — NxtWave CCBP 4.0 Academy (NIAT)

February 2024 - Present (2 years 1 month)

Roorkee, Uttarakhand, India

Learning full-stack development, software engineering, and 4.0 technologies through industry-aligned curriculum.

Building real projects using HTML, CSS, JavaScript, React, Node.js, Express, Python, Java, and SQL.

Practicing coding challenges, data structures, algorithms, and system design basics.

Working on hands-on assignments, sprints, and capstone projects.

Exploring prompt engineering to integrate AI into development workflows.

Education

NxtWave

NxtWave's CCBP 4.0 Academy, CCBP 4.0 Academy - Genius · (February 2024 - May 2028)

Haridwar University Roorkee

B.Tech, Computer Engineering · (September 2023 - June 2027)

Government Inter College

10th and 12th, PCM · (July 2019 - May 2023)
